

**English speaking doctors and medical facilities
in Naples' Consular District**
(September 2022)

DISCLAIMER: The U.S. Consulate General, Naples, Italy, assumes no responsibility or liability for the professional ability or reputation of, or the quality of services provided by, the medical professionals, medical facilities or air ambulance services whose names appear on the following lists. Inclusion on this list is in no way an endorsement by the Department of State or the U.S. Consulate. Names are listed alphabetically, and the order in which they appear has no other significance. The information in the list on professional credentials and areas of expertise are provided directly by the medical professional, medical facility or air ambulance service; the Consulate is not in a position to vouch for such information. You may receive additional information about the individuals and facilities on the list by contacting local medical boards and associations (or its equivalent) or local licensing authorities.

This is a list of english speaking physicians and dentists, available for private consultation by American citizens in the City of Naples and its consular district. In order to have information on doctors or medical facilities within the Naples consular district, you should contact the Italian Medical Association ("Ordine dei Medici") in the area of your interest (<http://portale.fnomceo.it/>)

HOSPITALS AND CLINICS

Medical facilities in Italy may assist Italian permanent residents or tourists with any type of emergencies that may occur. Tourists are expected to have travel insurance when they come to Italy although they are often expected to pay the hospital charges and then claim reimbursement from their insurance when they come home. Italian hospitals do not provide drinking water, toiletries, or towels and patients are required to bring their own supplies.

Sometimes Italian hospitals do not maintain the same standard as hospitals in the United States, but this is not an indication of the medical care that will be received. For that reason, it is recommended to obtain a medical insurance before travelling to Italy which covers a stay in a private hospital or clinic.

MEDICAL EMERGENCIES

In case of an emergency refer to the nearest hospital. Most general and regional hospitals have emergency rooms, which operate 24h, 7/7. **To call an ambulance, or if you are in need of immediate medical attention, dial 118 (toll free) from any telephone in**

Italy.

You can also call the Police dialing 113, which is equivalent to 911 in the US.

ANESTHESIOLOGY/ HYPERBARIC MEDICIN/ REANIMATION

MARMO, MARIANO

Office: Via Cardarelli, 9, 80129 Napoli

Tel: 081-747-4098 – 081-747-4102, Fax: 081-747-4082
